NORTON HEALTHCARE

Continuing Medical Education

CREATING A BOOKMARK / SHORTCUT

The websites used for continuing medical education are designed to be user-friendly for mobile devices. For sites frequently visited, creating a bookmark / shortcut that creates an icon/widget on your mobile device saves time.

Suggested URLs to create bookmarks for:

NortonCME.com – To quickly access a listing of all CME activities, access to online activities, conference registration, transcripts, sign in to your account and more. Additionally, the 'conference/details' link will provide presentations and information for symposiums/conferences.

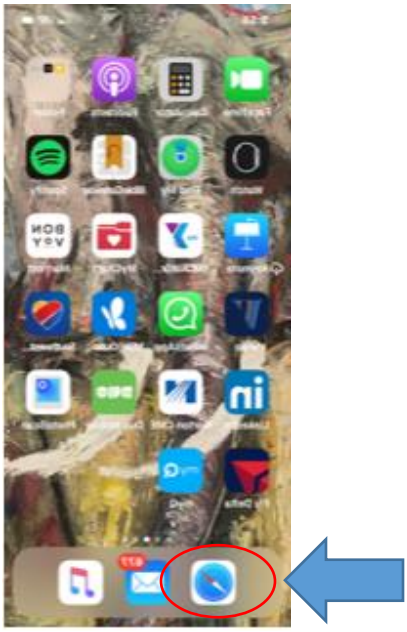
NortonRSS.com – To claim attendance for regularly scheduled series (RSS) such as Tumor Boards and Grand Rounds with the codes provided at the event.

NortonGrandRounds.com - To livestream Pediatric Grand Rounds and Pediatric Resident Grand Rounds.

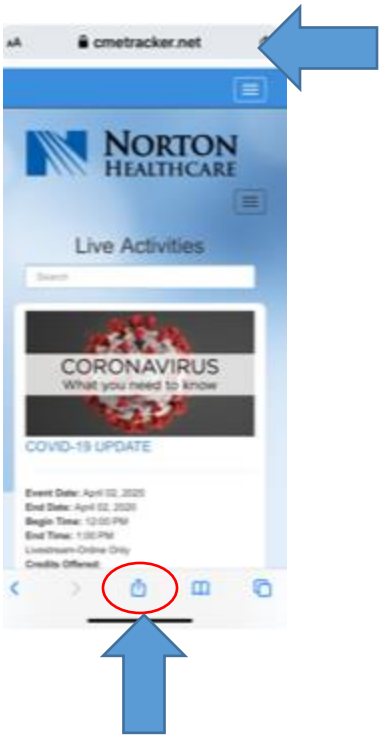
The following highlights steps to create a shortcut / bookmark on Apple and Android devices.

DIRECTIONS FOR APPLE DEVICES (iPHONE / iPAD)

1. **Select web browser**

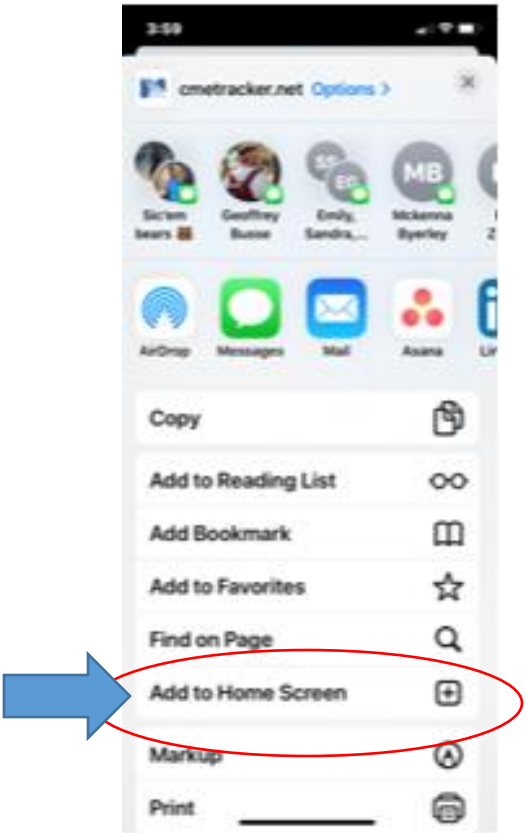


2. **Enter web address**
3. **Select 'share'**

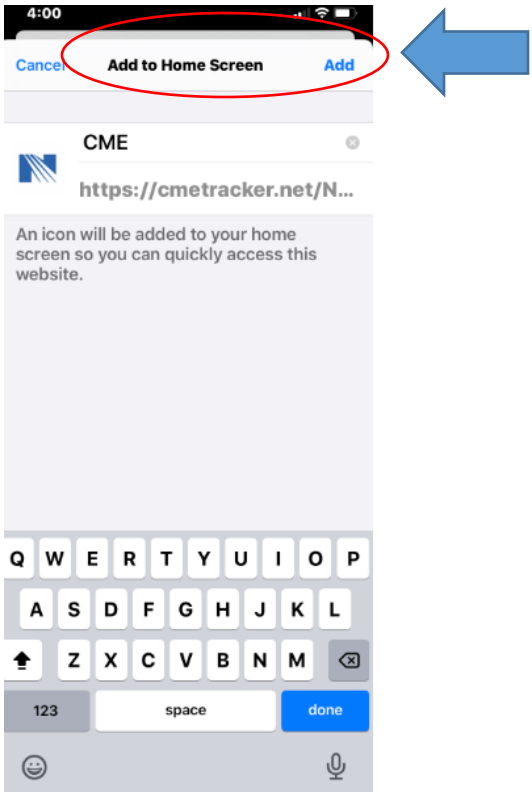


4. **Select 'Add to Home Screen'**

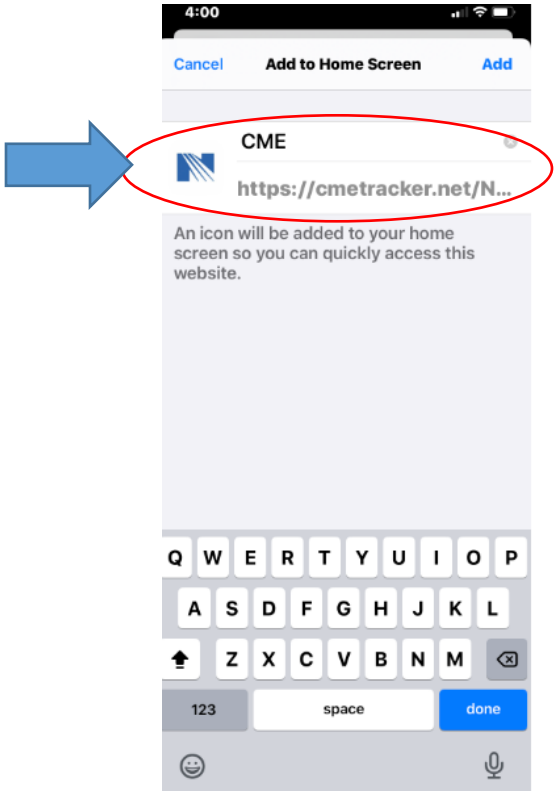
First screen



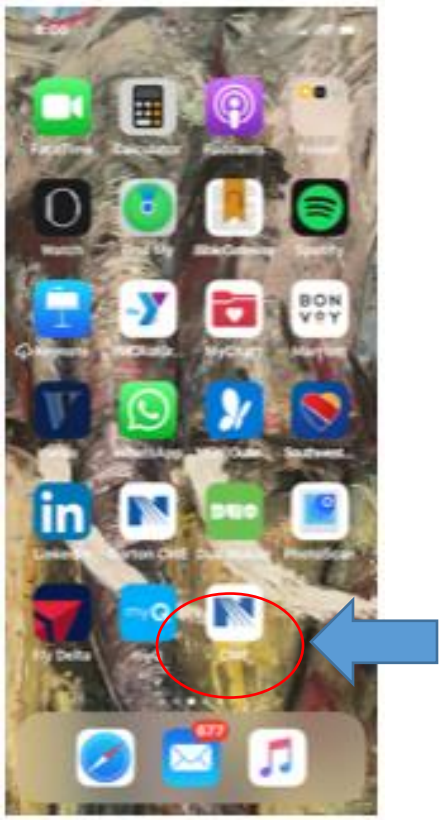
Second screen, confirm 'Add"



5. **Name shortcut / bookmark** *(This name will appear under the image.)*

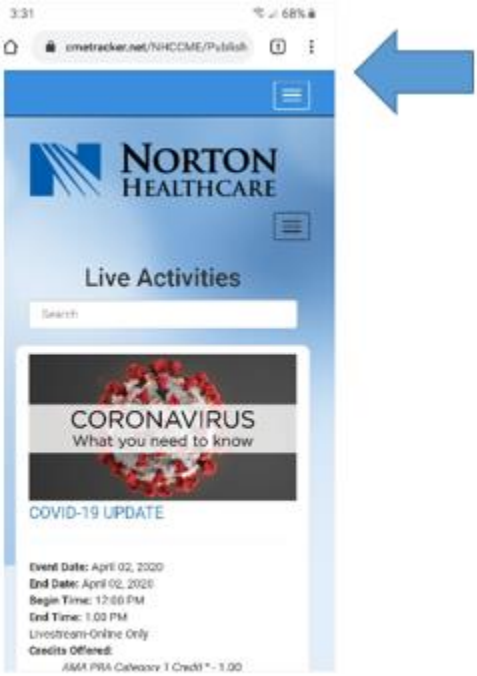


6. **Finished!** *The shortcut/bookmark has been added to your iPhone/iPad.*

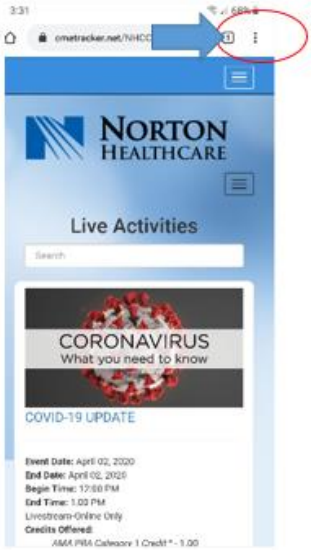


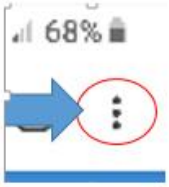
DIRECTIONS FOR ANDROID DEVICES (PHONES AND TABLETS)

1. **Select preferred web browser**
2. **Enter web address**



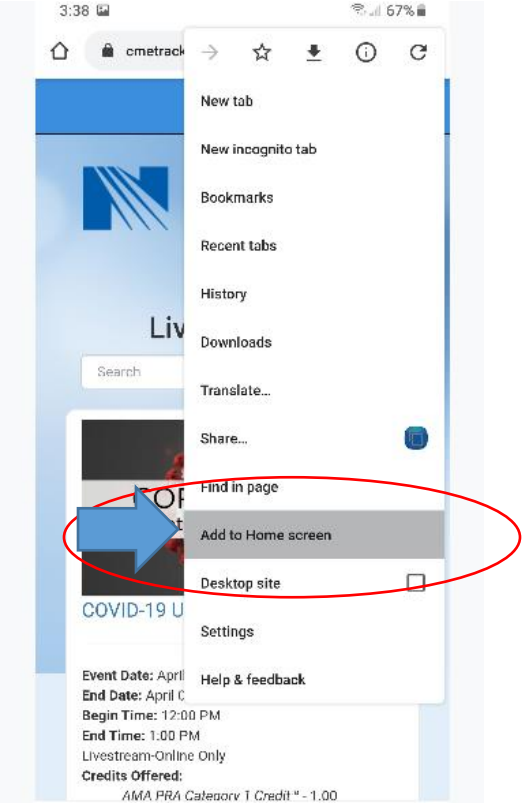
3. **Select icon at the top to add the URL to the home screen.**



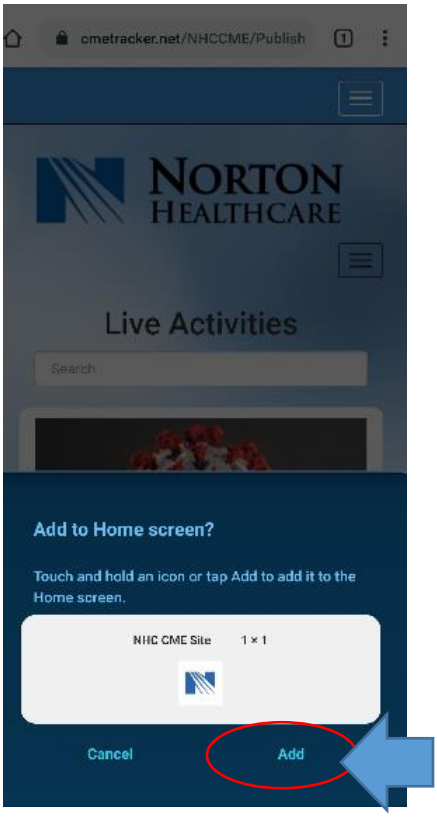


4. Select 'add to home screen'

First screen



Second screen, confirm 'Add"



5. Name shortcut / bookmark *(the name will appear under the icon image)* **and select 'Add'.**

6. **Finished!** *The shortcut/bookmark has been added to your device's home screen.*
